

# Prizes - FrontEnd Documentation

API Documentation: <https://it.api.testing.thefacultyweb.com/docs/>

## NEW Contest Home Screen

This is the Contest Home Screen

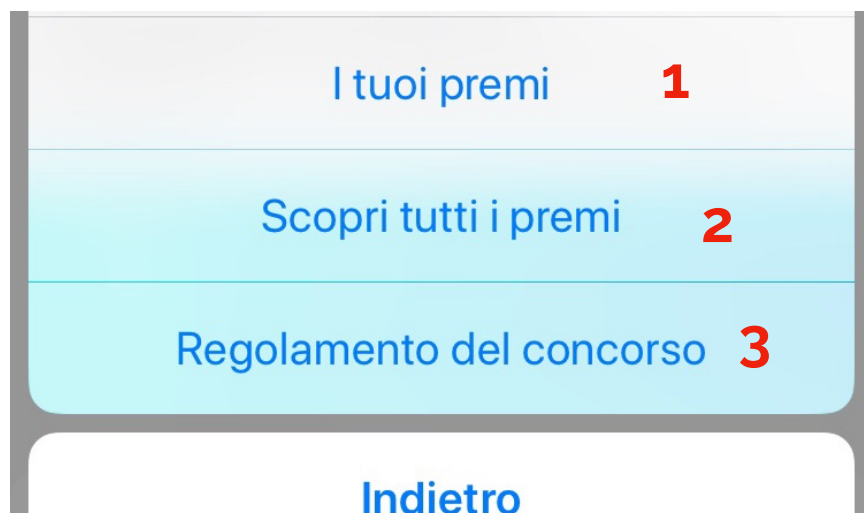

When you click the "Menù" button you have to show the bottom popup described in the **page 2**.

To get the Prizes icons list you have to call API **/contest/get\_prizes\_partners** and take the *image\_url* of all Partners and create a list to show into the box "PRIZES" (there will be only Esselunga icon at the moment. It's the same of Home (the second box "CONTEST").

The second box is "*Total prizes jackpot*" to take this data you have to call API ***/server/get\_static\_variable*** and pass ***{ "name": "contest\_home\_title" }*** and the string below is "***{contest\_home\_title}***".

### ***Bottom Popup of Contest***

**1** "Your prizes" label

**2** "Discover all prizes" label

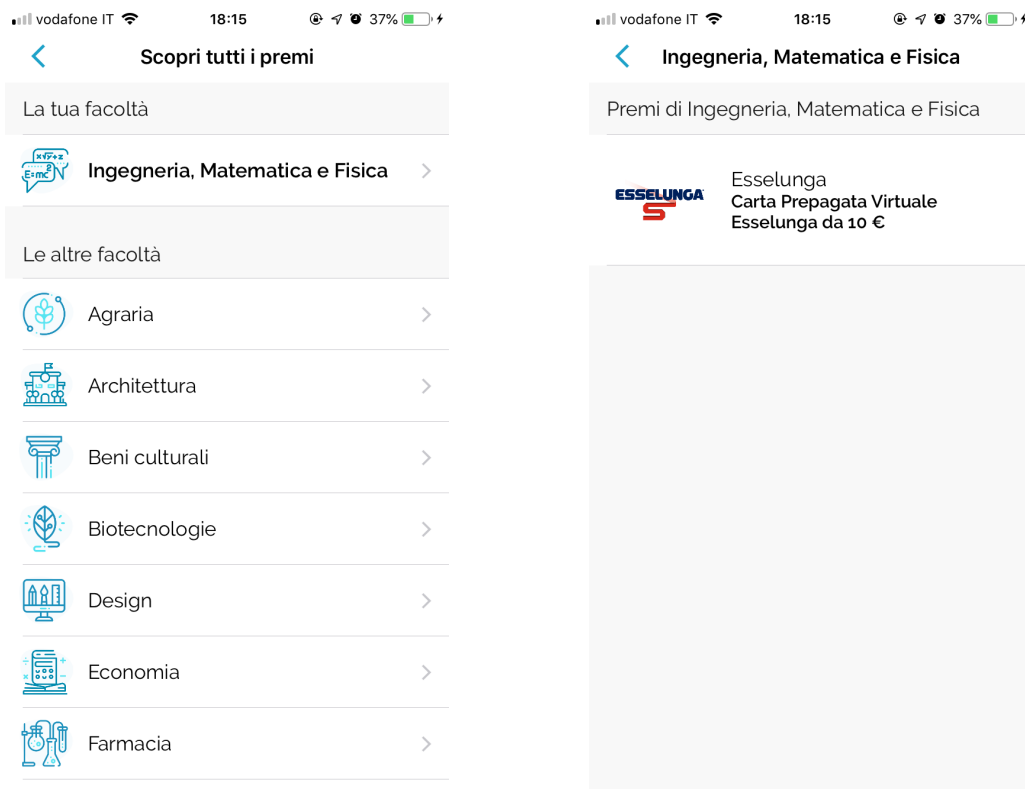

**3** "Contest Rules" label

When user clicks on the first button "Your prizes" you will open "Your prizes Screen" (**page 4 or page 5**).

When user clicks on the second button "Discover all prizes" you will open "All prizes Screen" (**page 3**).

When user clicks on the third button "Contest Rules" you will open the URL from ***constants.CONTEST\_RULES\_URL***

## All prizes Screen

To take all faculties you have to call API ***/profile/get\_all\_faculties*** the first label is "*Your faculty*" and you have to show the cell of user's faculty, the second label is "*Other faculties*" (the icon is "*faculty\_image*", the text is "*name*").

When user clicks on a cell you have to open the next page that contains a label and all prizes of selected faculty.

The first label of this page is "*Prizes of [selected faculty]*"

To take prizes of this faculty you have to call API ***/prizes/get\_prizes*** and pass the *faculty\_id*.

In the cell there is the ***image\_url***, ***partner\_name*** and ***title***.

## Your prizes Screen (WITHOUT prizes to accept)

There is a box like SignUp and Login with "I tuoi premi" / "Your prizes"

The text into the label is:

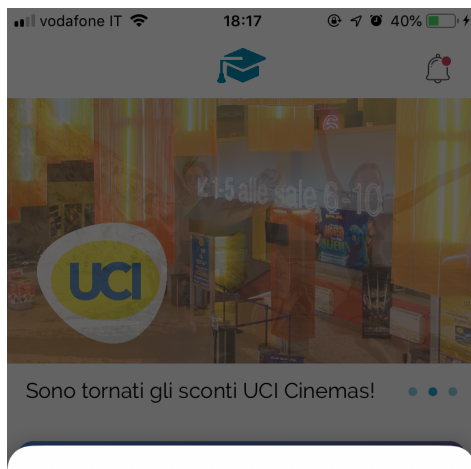

*Riceverai entro circa 5 giorni lavorativi l'email con il tuo premio al tuo indirizzo email personale inserito in fase di registrazione! Se non trovi l'email e hai già controllato la cartella spam contatta [assistenza@thefaculty.it](mailto:assistenza@thefaculty.it)*

Under the label you have to show some cells with won prizes by user.

To take all Prizes won you have to call API `/prizes/get_prizes_won`.

The data is `partner_image_url`, `title`, "Accepted the `{action_date}`"

## *Your prizes FLOW (WITH prizes to accept)*

APIs to call:

***/prizes/check\_for\_pending\_prizes*** to check if there are some prizes to accept. If API respond *data=TRUE* you have to show a bottom popup with:

Complimenti, hai vinto  
il Concorso!

Riscatta subito i premi!

Scopri i premi

***Congratulations, you won the Contest!***  
*Redeem now your prizes!*

***Discover the prizes*** (button)

Also, after you called the API for pending prizes you have to call:

***/prizes/check\_for\_missing\_verification*** to check if user sent documents.

If this API respond *data=TRUE* you have to open ***Identity Card Screen***.

If *data=FALSE* you have to open the ***Prizes Requests Screen*** (page 8).

## Identity Card Screen

The first screen is "Identity Card" screen and the second is "Tax Code" screen that you have to show a blue box, below a label with

- **"Inserisci la foto della tua carta d'identità"** for Identity Card screen
- **"Inserisci la foto del tuo codice fiscale"** for Tax Code screen

Below this label there is a label with

- **"Carta d'identità"** for Identity Card screen
- **"Codice fiscale"** for Tax Code screen

Below the label there are two fake textbox (not editable but clickable) with camera icon.

- **"Interno Carta d'Identità"** for Identity Card screen (the 1st textbox)  
**"Esterno Carta d'Identità"** for Identity Card screen (the 2nd textbox)
- **"Fronte Codice Fiscale"** for Tax Code screen (the 1st textbox)  
**"Retro Codice Fiscale"** for Tax Code screen (the 2nd textbox)

Clicking these you have to open the camera and user can take a photo of *front* and *back* of the Identity Card or Tax Code. If user took a picture you have to set the text color into the textbox to blue (like the second image) and with these label:

- "**Foto interna caricata**" for *Identity Card* screen (the 1st textbox)  
"**Foto esterna caricata**" for *Identity Card* screen (the 2nd textbox)
- "**Fronte Codice Fiscale**" for *Tax Code* screen (the 1st textbox)  
"**Retro Codice Fiscale**" for *Tax Code* screen (the 2nd textbox)

If user completed all fields you have to send these photos to server. First you have to upload these photos on Firebase at the positions:

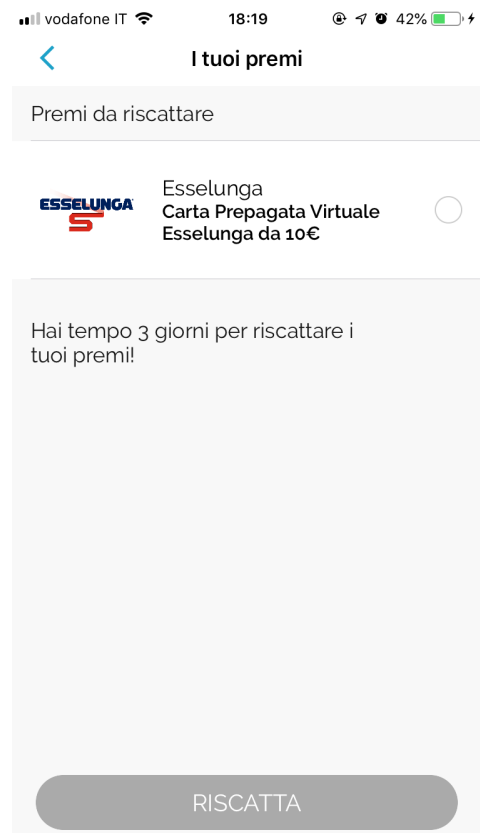

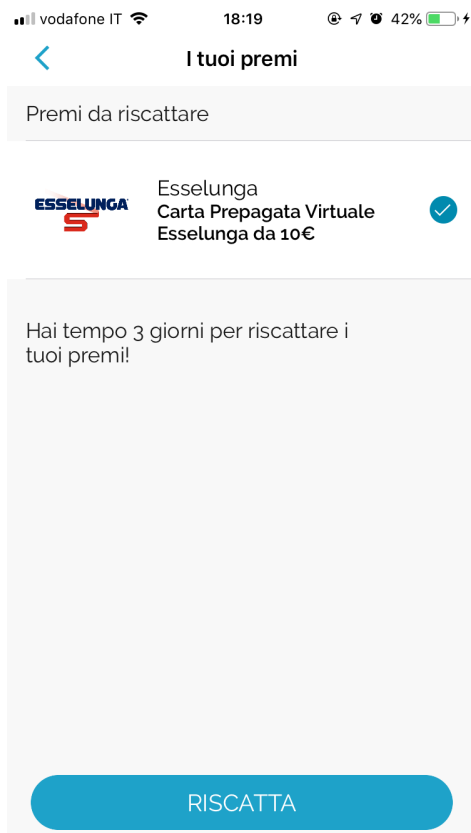

- `/users_images/{FIREBASE_UID}/documents/id_card_front_image`  
for Identity Card FRONT
- `/users_images/{FIREBASE_UID}/documents/id_card_back_image`  
for Identity Card BACK
- `/users_images/{FIREBASE_UID}/documents/tax_code_front_image`  
for Tax Code FRONT
- `/users_images/{FIREBASE_UID}/documents/tax_code_back_image`  
for Tax Code BACK

**{FIREBASE\_UID}** you can take this from user data.

After you uploaded the images on Firebase Storage you have to call API; `/prizes/send_verification` and pass

**firebase\_idToken**,  
**id\_card\_front\_image\_url**, **id\_card\_back\_image\_url**,  
**tax\_card\_front\_image\_url**, **tax\_card\_back\_image\_url**  
with all URLs of images uploaded.

## Prizes Requests First Screen

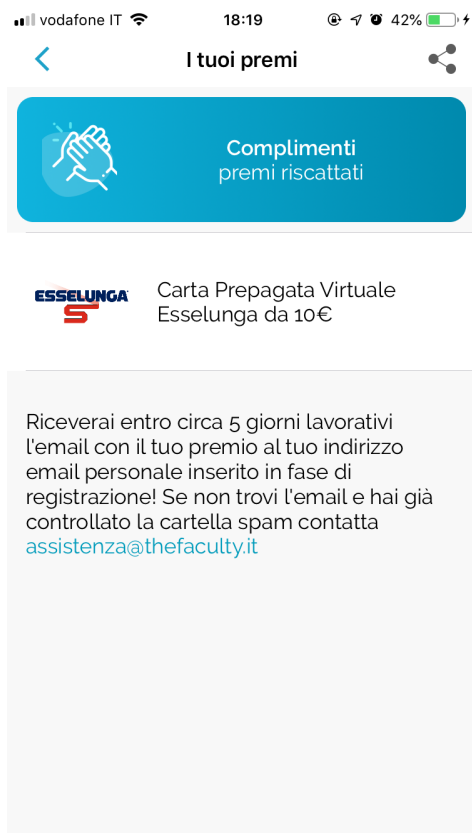

To take all pending prizes you have to call API **`/prizes/get_pending_prizes`** and you have to show these data into cells with check box like image.

For each prize you have to call API **`/prizes/pending_prize_action`** with **`firebase_idToken`**, **`prize_request_id`**, **`action`**: *accepted*, *rejected*

## Prizes Requests Last Screen
